

November 22, 2011

The Medicus Firm consultant, Steve Look and I have successfully worked together on several physician searches. The most recent successful search was for a physiatrist to work with the patients in our Inpatient Rehab Unit. With a thorough understanding of our community, the specialty and our needs, he quickly put together a detailed search plan and gave us confidence that if we worked together, we could get the job done.

The Medicus Firm presented the physician we hired. The candidate was well-informed of our situation, understood both the positives and the negatives of the area and the opportunity and was prepared to make a decision.

I have enjoyed working with Steve the past few years. He is a professional in all areas of physician recruitment. He is cordial, detail-oriented, friendly and very ethical. In addition, my association with Jeff Katon/Principal has been very beneficial and valuable.

I will continue to work with The Medicus Firm and strongly recommend them when you are choosing a recruitment firm to assist you with any of your physician recruiting requirements.
