

Joan C. Edwards School of Medicine
Department of Psychiatry and Behavioral Medicine

6/23/2014

To Whom It May Concern:

Marshall Health and Joan C. Edwards School of Medicine's Department of Psychiatry and Behavioral Medicine are pleased to strongly recommend The Medicus Firm and the VP of Academic Recruitment, Mark Lozano for all of your academic physician searches.

After working closely with the Psychiatry Department and determining our specific candidate parameters, Mark presented us with five quality candidates that led to three interviews for a potential position in our Psychiatric Department. In less than six short months, Mr. Lozano successfully sourced, vetted, and placed an outstanding Adult Psychiatrist to satisfy our acute need for adult service within our department. The Medicus Firm was able to tailor their search to the specifics required by our department, and they provided us the best chance to fill our needed position. Marshall University is extremely pleased with the work completed by Mark and his Academic Team, and we are excited about adding their candidate to our Psychiatric Department.

We look forward to using The Medicus Firm in the future and would highly recommend their services. We would also be happy to speak with anyone considering a collaborative partnership with them.

Sincerely,

Missy Clagg Browning
Education Coordinator & Physician Recruiter

WE ARE... MARSHALL.
