Re: The Medicus Firm

To Whom It May Concern:

I have worked with The Medicus Firm successfully on two searches and I am currently working with them to fill other positions. I believe the relationship between myself and the recruiter in any firm is the key to success.

Our recruiter, Wes Jones, has done a great job of delivering high quality, prescreened candidates for our needs. He is from the area and knows and represents our market very well. He only represents opportunities in our state. Even though I'm sure he works with a number of other hospitals, I feel as though he only works for me.

Based upon the experience I have had with Wes as a recruiter, I recommend The Medicus Firm for anyone looking to recruit physicians.

Sincerely,

Carolyn Arbuckle
