

January 2019

Michael Messier
Regional VP, Medicus Firm

I have had the opportunity recently of working with Amanda Owens, Recruiting Consultant and Jeremy Geer, Principal Recruiter, in helping me recruit a primary care physician to a frontier county in Kansas. They exceeded my expectations and helped me recruit two primary care physicians!

The physicians: a husband and wife team -- he a family physician, she a pediatrician -- will be a boon to the people of Lincoln County Kansas. They committed to coming to Lincoln within a week of their initial visit.

I give much of the credit to Amanda. She worked very closely with me on the details of the physicians' visit to Lincoln as well their needs and wants in regard to the position we had open. Jeremy deserves credit for helping close the deal. They are a great team.

The Medicus firm was recommended to me by two of my Kansas Critical Access Hospital fellow CEOs. Based on my experience with Amanda and Jeremy, I would not hesitate to recommend The Medicus Firm to any of my colleagues.

Sincerely,

Steven L. Granzow, CEO
Lincoln County Hospital
